Stay on Top of Your Business

With professionally monitored security, access, energy management and video monitoring solutions, you get peace of mind knowing that your properties are protected and your business is running smoothly — no matter where you are.

Make Decisions with Actionable Business Insights

Receive easy to understand reports that provide quick visibility into trends and unexpected activity across all business locations.

- Maximize staffing efficiency with Activity Reporting
 - Easily understand when your busiest hours are
 - Quickly track the impact of promotions on customer traffic
- Simply set up your office hours to receive a notification if employees are arriving late or leaving early

Get Smarter Business Video Monitoring

Our range of commercial-grade video options flexibly address the unique video monitoring requirements of your business property. Get awareness like never before.

Control Property Access

Assigned employee user codes can be easily added and removed so you know who's coming and going from your business at all times. Smart locks allow you to open your business to anyone at any time.

Save Energy, Save Money

Reduce energy waste and save money with schedules to automatically adjust temperature and lighting. Smart thermostats and lights ensure your business is comfortable when it's open and safe when it's closed.
